Days and nights at the Second City (2001 edition) | Open ... On the equator, the day and night stay approximately the same length all year round, but the day will always appear a little longer than 12 hours, due to the reasons below. On the equinoxes, the geometric center of the sun is above the horizon for 12 hours, and you might think that the length of the day (hours of daylight) would be 12 hours too. Equinox Does Not Have Equal Day & Night Length This item:
